Richard A. LaBelle
 Town Manager

Town Manager's Report
February 21, 2018

We have continued to monitor the situation on Hotel Street with the Water District having opened it up last week. I have spoken with the Trustee Chair, as well as the Superintendent and expressed the importance to the town that the Road Opening Ordinance be complied with. I issued the District a notice of violation, which I have attached to the report. We are monitoring the site and have been tracking our labor and materials. I will also be asking that the site be returned to its original condition in the spring after repair. I will be attending the next trustee meeting on March 1 at 12:00 noon.

Maine Municipal Association Risk Management Services was on site yesterday to review the wastewater facility, pump stations, and the Town Office. Initial review indicates that we were compliant and would not be put on any action plan. We will have written report from the inspector within approximately two weeks.

Olver Associates will be down on Friday to review design plans for the upgrade

Communication from the Governor's Office was forwarded to us from our State Representative, for informational purposes. If you are interested in viewing the entire packet, let me know and I can get it to you, printed or electronically.
